AGENDA ITEM 3

WORK SESSION ITEM _____

TO: Mayor and City Council

FROM: Director of Public Works

SUBJECT: Slurry Seal, Pavement Repair and Rehabilitation 1999/2000: Award of Contract

RECOMMENDATION:

It is recommended that the City Council approve the resolutions that award the Schedule A contract (Pavement Slurry Seal) to Bond Blacktop, Inc., in the amount of \$164,080 and the Schedule B Contract (Pavement Repair and Rehabilitation) to Gallagher & Burk, Inc., in the amount of \$1,458,654.

BACKGROUND:

On June 1, 1999, Council approved the plans and specifications and called for bids to be received on June 29, 1999, for this project, which was divided into two schedules to obtain the best bids. Schedule A (Pavement Slurry Seal) is a continuation of the City's on-going program to slurry seal residential streets every six-to-seven years to extend the life of the street pavement. The work consists of making deep-lift asphalt concrete spot repairs, sealing cracks, and then placing a slurry seal over the entire pavement area. All residential streets in the two areas shown on the attached Exhibit B are proposed for slurry seal this year, except those in excellent condition due to recent construction or resurfacing, and also those in need of overlay due to their structural inadequacy or extended failure. One area is located south of West "A" Street, west of the I-880 freeway, north of West Winton Avenue, and east of Hesperian Boulevard. The other area is located south of West Winton Avenue, west of Hesperian Boulevard, north of Highway 92, and east of Clawiter Road. Parking Lots 5 and 6 near Foothill Boulevard and "A" Street and some paved areas in the Water Pollution Control Facility (WPCF) will also be slurry sealed.

Schedule B (Pavement Repair and Rehabilitation) consists of making deep-lift asphalt concrete spot repairs, placing reinforcing fabric, and placing an asphalt concrete overlay on various streets and at the Water Pollution Control Facility (WPCF). Specific streets and locations to receive rehabilitation and repair are listed on the attached Exhibit A.

On June 29, 1999, four bids were received for Schedule A ranging from \$164,081 to \$212,079 and three bids were received for Schedule B ranging from \$1,458,654 to \$1,840,307.60.

Schedule A:

The low bid was submitted by Bond Blacktop, Inc., of San Jose, in the amount of \$164,080.00, which is almost equal to the Engineer's estimate of \$164,000. Valley Slurry Seal Company of West Sacramento submitted the second lowest bid in the amount of \$187,224, which is 14.2 percent above the Engineer's estimate and \$23,143 more than the low bid. The combined goal for Disadvantaged Business Enterprises (DBE) and Women Owned Business Enterprises (WBE) participation for Schedule A was established at 7 percent. The bid submitted by Bond Blacktop includes 7.1 percent combined participation, which meets the project goals.

Schedule B:

Gallagher & Burk, Inc., of Oakland submitted the low bid, in the amount of \$1,458,654, which is 7.3 percent below the Engineer's estimate of \$1,574,000. O'Grady Paving, Inc., of Mountain View submitted the second lowest bid in the amount of \$1,619,786, which is 2.9 percent above the Engineer's estimate and \$161,132 more than the low bid. The DBE and WBE goals for this portion of the project were established at 10 percent DBE and 3 percent WBE. Gallagher & Burk will have DBE and WBE participation of 17 percent and 3.4 percent, respectively, which exceeds the project goals.

Project Cost:

The estimated project costs are as follows:

Pavement Slurry Seal – Contract Construction (Schedule A)	\$ 164,080
Pavement Repair/Rehabilitation – Contract Construction (Schedule B)	1,458,654
Detector Loops Replacement	25,000
Re-striping	43,000
Crack Sealing (City Forces)	45,000
Tree Trimming (City Forces)	10,000
Design and Administration	97,000
Inspection and Testing	74,000
TOTAL	<u>1,916,734</u>

Funding:

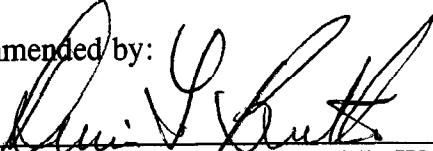

A total of \$2,050,000 has been identified in the approved 1999/2000 Capital Improvement Program for Street Repair, Pavement Rehabilitation, and Slurry Seal.

Schedule:

Begin Work	August 16, 1999
Complete Work	October 20, 1999
